Categoria 7b - Demonstrative Pronouns

Avaliação do GPT-5.6 Thinking com o English Tagset 2026-08-04

Pesquisadora	Andressa Domingues Pedroso Russi Salaru
Programa	LAEL - Linguística Aplicada e Estudos da Linguagem, PUC-SP
Orientador	Tony Berber Sardinha
Categoria	7b - demonstrative pronouns
Modelo	GPT-5.6 Thinking
Data da execução	4 de agosto de 2026
Conjunto de teste	50 sentenças autênticas: 25 YES e 25 NO

São Paulo
2026

Resumo executivo

O teste avaliou exclusivamente a capacidade do GPT-5.6 Thinking de detectar, em nível de sentença, a presença da categoria 7b - demonstrative pronouns. A categoria abrange this, that, these e those quando funcionam de maneira independente, sem determinar um substantivo expresso.

O conjunto foi preparado antes da execução e contém 50 sentenças autênticas do corpus humano: 25 positivas e 25 negativas, todas com pelo menos 20 palavras. O modelo recebeu o tagset completo e produziu etiquetagem palavra por palavra. A saída foi convertida em YES quando continha {7b} e em NO quando não continha essa etiqueta.

Resultado principal: o modelo identificou corretamente todos os 25 casos positivos e rejeitou corretamente todos os 25 casos negativos. TP = 25; TN = 25; FP = 0; FN = 0; precision = 100%; recall = 100%.

Escopo do resultado: o desempenho de 100% refere-se somente à presença ou ausência da categoria 7b neste conjunto específico. Ele não certifica a correção de todas as demais etiquetas aplicadas pelo modelo.

1. Objetivo e pergunta de avaliação

O objetivo foi avaliar se o GPT-5.6 Thinking identifica corretamente a categoria 7b do tagset de inglês em sentenças autênticas. A unidade de decisão foi a sentença: cada item deveria receber YES quando contivesse pelo menos uma ocorrência correta de 7b e NO quando não contivesse nenhuma ocorrência dessa categoria.

Pergunta de avaliação: em um teste balanceado de 50 sentenças, qual é o desempenho do modelo na detecção da categoria 7b, medido por true positives, true negatives, false positives, false negatives, precision e recall?

2. Definição operacional da categoria 7b

Definição do tagset: 7b. demonstrative pronouns: this (e.g. I'll do this.); these, that, those.

Foi considerado positivo o uso de this, that, these ou those como núcleo pronominal independente. Foram considerados negativos os demonstrative determiners de 7a, os usos de that como complementizador, os usos de that como pronome relativo e as sentenças sem forma demonstrativa.

Exemplo	Decisão para 7b	Razão
I do not want that.	YES	that funciona sozinho como complemento verbal

This is difficult.	YES	This funciona sozinho como sujeito
those who applied	YES	those é o núcleo e recebe uma relativa
that situation	NO	that determina o substantivo situation: categoria 7a
I think that she left.	NO	that introduz uma oração-complemento
the person that called	NO	that introduz uma oração relativa

3. Materiais e construção do conjunto de teste

- Corpus-fonte: pasta 05_human, com 2.855 textos humanos do corpus de autoexposição sobre solidão.
- Composição: 50 sentenças completas, sendo 25 positivas e 25 negativas para 7b.
- Extensão mínima: todas as sentenças possuem pelo menos 20 palavras.
- Autenticidade: a grafia, a capitalização e a gramática originais foram preservadas; apenas espaços e quebras artificiais de linha foram normalizados.
- Rastreabilidade: o arquivo de origem de cada sentença foi registrado antes do teste.
- Ordem: positivas e negativas foram embaralhadas antes da aplicação.
- Gabarito: a decisão YES/NO foi preparada antes da execução e não foi enviada ao modelo.

3.1 Composição dos casos negativos

Tipo de negativo	Quantidade
Caso positivo de 7a (demonstrative determiner)	10
that complementizador	6
that relativo	5
Frase sem this/that/these/those demonstrativo	4
Total	25

3.2 Registro técnico da execução

Item	Registro
Modelo	GPT-5.6 Thinking
Data	4 de agosto de 2026
Categoria avaliada	7b - demonstrative pronouns
Relação com versão anterior	A categoria correspondia a 8b na versão de trabalho anterior; a execução oficial já utilizou 7b
Arquivo de tagset usado	English Tagset 2026-08-04
Arquivo de teste	en_7b_test_file.txt
Número de sentenças	50
Distribuição	25 YES / 25 NO
Correções após a saída	Nenhuma
Arquivo de gabarito	en_7b_answer_key.txt

Nota de versão: o relatório emprega a numeração oficial 7a/7b da versão 2026-08-04. As planilhas preparatórias anteriores continham os rótulos 8a/8b; a execução oficial deste teste, porém, já utilizou 7b. Frases, gabarito e decisões linguísticas foram preservados.

4. Procedimento de aplicação

1. Foi aberta uma conversa nova com o GPT-5.6 Thinking.
2. Foi enviada uma instrução detalhada exigindo etiquetagem imediatamente após cada item e proibindo uma lista agregada de etiquetas no fim da sentença.
3. O tagset atualizado foi anexado e o modelo confirmou sua leitura, inclusive da categoria 7b.
4. O arquivo com 50 sentenças foi anexado e o modelo confirmou ter recebido exatamente 50 itens.
5. A execução foi iniciada somente com a mensagem START TAGGING.
6. A primeira resposta completa foi preservada sem correção, negociação ou nova tentativa.
7. Após a execução, verificou-se que as 50 sentenças foram devolvidas uma única vez, na ordem original, e que o texto permaneceu idêntico após a remoção das etiquetas.

4.1 Adequação ao formato do prompt do projeto

O prompt disponibilizado no repositório determina que cada etiqueta seja inserida entre chaves imediatamente depois de cada caso. A instrução usada neste teste detalhou esse requisito para evitar a agregação de todas as etiquetas no final da sentença. O formato obtido foi palavra por palavra, como exigido.

5. Conversão da saída para YES/NO

O modelo devolveu a etiquetagem completa, e não uma lista binária. Para comparar a saída com o gabarito, cada sentença foi convertida de acordo com a presença da etiqueta específica 7b:

- Presença de {7b} em qualquer item da sentença = resposta do GPT igual a YES.
- Ausência de {7b} em toda a sentença = resposta do GPT igual a NO.
- A etiqueta agregada {906} não foi usada como substituta de 7b.
- As etiquetas 7a, 49, 66, 101 e 102, entre outras, foram consideradas apenas como contexto; a pontuação do teste dependeu exclusivamente de 7b.

A classificação da comparação seguiu as quatro possibilidades abaixo:

Gabarito	GPT	Classificação	Interpretação
YES	YES	TP	A categoria estava presente e foi detectada.
NO	NO	TN	A categoria estava ausente e foi corretamente rejeitada.
NO	YES	FP	A categoria estava ausente, mas foi marcada.
YES	NO	FN	A categoria estava presente, mas não foi marcada.

6. Resultados quantitativos

Gabarito / GPT	GPT = YES	GPT = NO	Total
Gabarito = YES	25	0	25
Gabarito = NO	0	25	25
Total	25	25	50

Métricas finais

Medida	Fórmula aplicada	Resultado
--------	------------------	-----------

True positives (TP)	-	25
True negatives (TN)	-	25
False positives (FP)	-	0
False negatives (FN)	-	0
Precision	$25 / (25 + 0)$	100.0%
Recall	$25 / (25 + 0)$	100.0%
Accuracy	$(25 + 25) / 50$	100.0%
Specificity	$25 / (25 + 0)$	100.0%
F1-score	$2 \times (\text{precision} \times \text{recall}) / (\text{precision} + \text{recall})$	100.0%

6.1 Cálculos

Precision = $TP / (TP + FP) = 25 / (25 + 0) = 1.00 = 100.0\%$
 Recall = $TP / (TP + FN) = 25 / (25 + 0) = 1.00 = 100.0\%$
 Accuracy = $(TP + TN) / N = (25 + 25) / 50 = 1.00 = 100.0\%$
 Specificity = $TN / (TN + FP) = 25 / (25 + 0) = 1.00 = 100.0\%$
 F1 = $2 \times (\text{precision} \times \text{recall}) / (\text{precision} + \text{recall}) = 1.00 = 100.0\%$

6.2 Resultado em linguagem direta

O GPT-5.6 Thinking encontrou todas as 25 ocorrências reais de demonstrative pronouns e não produziu nenhuma marcação 7b nas 25 sentenças negativas. Consequentemente, não houve falsos positivos nem falsos negativos.

Síntese: TP = 25; TN = 25; FP = 0; FN = 0; precision = 100%; recall = 100%.

7. Auditoria sentença por sentença

A tabela apresenta o gabarito preparado antes da execução, a decisão derivada da saída do GPT, a classificação obtida e a justificativa linguística de cada item. As denominações históricas 8a/8b das planilhas preparatórias foram atualizadas para 7a/7b.

8. Interpretação, limitações e reprodutibilidade

8.1 Interpretação

O resultado indica que, sob o prompt, o tagset e o conjunto de teste registrados, o modelo distinguiu sem erro demonstrative pronouns de demonstrative determiners, de that complementizador, de that relativo e de sentenças sem forma demonstrativa.

O conjunto inclui contrastes funcionalmente relevantes, como those who..., some of these, after that, this is..., that situation, those people, I realized that... e friends that.... Portanto, o resultado não decorre apenas da presença superficial das palavras this, that, these ou those.

8.2 Limitações

- O conjunto contém 50 sentenças e não representa todas as construções possíveis do inglês.
- As frases provêm de um corpus temático e de um registro específico de autoexposição digital.
- O resultado se refere a uma execução específica do GPT-5.6 Thinking em 04/08/2026; novas execuções podem variar.
- A avaliação foi binária em nível de sentença. Não foi realizada uma auditoria integral da correção de todas as demais etiquetas.
- O tagset completo foi utilizado tal como fornecido; eventuais inconsistências editoriais em categorias não relacionadas a 7b não alteram a pontuação específica deste teste.

8.3 Condições de reprodutibilidade

- Usar o mesmo arquivo de tagset reproduzido no Apêndice D.
- Usar exatamente o mesmo arquivo de 50 sentenças e a mesma ordem.
- Aplicar o prompt integral do Apêndice C em uma conversa nova.
- Não informar ao modelo que o teste contém 25 positivos e 25 negativos.
- Não fornecer o gabarito antes da execução.
- Preservar a primeira saída completa e não corrigida.
- Converter a presença específica de {7b} em YES e a ausência em NO.

9. Conclusão

No conjunto avaliado, o GPT-5.6 Thinking apresentou desempenho perfeito na detecção da categoria 7b - demonstrative pronouns. Todos os casos positivos foram identificados e todos os negativos foram corretamente rejeitados. O teste resultou em TP = 25, TN = 25, FP = 0 e FN = 0, com precision e recall iguais a 100%.

A conclusão deve ser limitada ao conjunto, ao prompt, ao tagset e à execução aqui documentados. Ela não implica desempenho perfeito em outros conjuntos nem valida automaticamente as demais etiquetas aplicadas na saída completa.

9.1 Formulação breve em inglês

GPT-5.6 correctly identified all 25 positive instances of demonstrative pronouns and correctly rejected all 25 negative cases. No false positives or false negatives were observed. Precision, recall, accuracy, specificity, and F1-score were therefore 100% for category 7b in this test set.

Conteúdo integral do arquivo en_7b_test_file.txt, na ordem enviada ao modelo.

Sentence 1. I want companionship, but I don't see clear or realistic ways to meet anyone, and that makes me feel frustrated and stuck.

Sentence 2. I was supposed to graduate in January 2025 but a ton of unfortunate events happened and I ended up graduating in December instead.

Sentence 3. At that point, they chose what was best for them, and I do not blame them for leaving me at my worst.

Sentence 4. I know we hadn't even met yet, but I poured so much of my heart into those conversations because they felt real.

Sentence 5. I just realized that my loneliness isn't because I don't have a boyfriend or friends—it's because I don't have someone to talk to.

Sentence 6. This is not the future I wanted, the type of loneliness I feel is equivalent of a 80 yo man with no family.

Sentence 7. This has always been an enigma to me and it has caused me a lot of suffering, but I have found it's source.

Sentence 8. While some of these were a bit stressful, I've always been impressed by the quality of the ideas that have emerged.

Sentence 9. I am a gym rat, love art and reading so i fill my time with these hobbies but it doesn't fill the deep hole in my heart of wanting community and connection with other humans.

Sentence 10. I don't want to go back to that because it stops me from doing the very few things I enjoy.

Sentence 11. So I know that I have a lot of work ahead of me, but in the meantime, it sucks to want what I want and feel so undeserving of it.

Sentence 12. I'm not exceedingly good at most games but regardless of that I can talk in game, make posts, and everything in between but I just can't find anyone

Sentence 13. The difference between people who dream and those who achieve lies in the discipline of **showing up even when it's not exciting.** #

Sentence 14. For those who've tried them, did it help even a little, or did it feel empty compared to real human interaction?

Sentence 15. My anxiety has been terrible the past few days and I feel like I can't open up to anyone about it.

Sentence 16. Today I saw someone that used to be my friend back in middle school, I didn't reach out, neither did they.

Sentence 17. I don't think I am truly alone, mainly because I have built a following on YouTube and those people despite not knowing me personally actually care about what I do and find my other hobbies I share interesting.

Sentence 18. Don't get me wrong, I feel grateful for the life I have, but I feel that its not worth living it by myself.

Sentence 19. There was this episode in Star Trek Voyager where they crossed an expanse of the galaxy devoid of any stars for several light years.

Sentence 20. He can be pretty toxic at times, and I've noticed that most of his trash-talking seems to be directed at me.

Sentence 21. To be honest, I've never experienced what genuine friendship actually feels like, and that hurts more than I can explain.

Sentence 22. I've tried reaching out and making plans with people and it just seems that nobody wants to do anything with me.

Sentence 23. Unfortunately I have increased grief and sadness for the life I thought I would have, as well as alienation from those who say they care about me.

Sentence 24. (I still drink small amounts.) i am a 24 year old woman and i spend my nights and all my weekends alone wishing i had friends that wanted to go out and have fun like i used to.

Sentence 25. Its silly, I know, letting social media followings dictate so much of your self-esteem, but these werent strangers, you know?

Sentence 26. I'm still too young to say these things, I'm 20 and I have my life ahead of me, but my life has been stagnant for years and even though it will change soon it will definitely be for worse.

Sentence 27. I love taking care of my home, cooking new recipes, and getting ready in a feminine, elegant way, those are truly my favorite hobbies.

Sentence 28. Chatting with others online has helped me, even to the point where I have created a chat profile to chat with those that are serious about connecting

Sentence 29. People talk about heartbreak like it's when love leaves you but what about those of us who never even get the chance to break?

Sentence 30. The only way I have coped is to make that effort to be as social as I can within what's socially acceptable as a married man.

Sentence 31. That is when I felt peak loneliness, not one human to ask me where i was, how i was, nothing.

Sentence 32. This is what makes your self-respect so important, and I don't see how you can respect yourself if you must look in the hearts and minds of others for your happiness.

Sentence 33. Many found communication skill as what was holding them back, almost twice as many as those who said physical appearance was the cause.

Sentence 34. Everyone around me, people in my class, people in my school, my family members all have friends that they have a good connection with, talk about, hang out with.

Sentence 35. A year or so later I fell for an old friend (with whom I was loosing touch) but I never quite knew if my feelings were true or if I was forcing myself into that situation because I was actually afraid of being alone.

Sentence 36. After that, the only people I had were my old friends, but since I live in a different city now, we rarely talk.

Sentence 37. I am still connected to many of them, but I do not have any in-person friends that I meet regularly.

Sentence 38. Sure I know where to find those who Connect like I do but --- come on... I want to meet people who are their own person, I want real friends; a variety of people here.

Sentence 39. I don't have friends but don't want to make any friends that will have to meet in real life either.

Sentence 40. This has opened my eyes to reflect on my current friendships and acquaintances, and hell, even just random people I come into contact with.

Sentence 41. This has been a consistent truth through the years for me and as much as I have tried being optimistic I am not in the space to be anymore.

Sentence 42. I was honestly really looking forward to the holidays so I could go back and stay with my parents for two weeks.

Sentence 43. So I spend most of my time on my own, I'm quite social and keep busy and this is something I'm comfortable with.

Sentence 44. I feel people deeply, but lately it feels like there's no one around to feel with, if that makes sense.

Sentence 45. This is where my inner conflict arises: I am very afraid of loneliness because many social relationships are strongly defined by romance or sexuality.

Sentence 46. I researched online on how to have fun and study well but many articles and discussions online said that studying in groups can make it more "fun" and "effective" but I doubt it since I am an introvert and a loner.

Sentence 47. Sometimes I feel this weird mix of anxiety and sadness like I should be doing something with my life, but I just don't know what.

Sentence 48. I'm curious whether others feel it helps them get through those moments, or if it highlights what's missing once the conversation ends.

Sentence 49. I mean, I am the one mostly initiating and texting first, will he text me if I just stopped doing that?

Sentence 50. I don't want to put in the effort to build friendships from scratch (especially since meeting new people is uncomfortable); I just wish reality were different.

Everyone {8,906} around {69} me {3,906}, people {9,11} in {69} my {3,906} class {9,18}, people {9,11} in {69} my {3,906} school {9,15,18}, my {3,906} family {9,18} members {9,11} all have {23,109} friends {9,11} that {66,101,904} they {5,906} have {23,109} a {2} good {35,39,905} connection {9,10,12,14} with {69,104}, talk {25,109,907} about {69,104}, hang {24,84,109,907} out with {69,104}.

Sentence 35. A {2} year {9,17} or {46,901} so {42} later {42,43} I {3,906} fell {26,30,88,907} for {69} an {2} old {35,38,905} friend {9,11} (with {69} whom {103,904} I {3,906} was {22,30,33} losing {24,907} touch {9,14}) but {47,901} I {3,906} never {42,43} quite {42,71} knew {26,30,80,907} if {48,901} my {3,906} feelings {9,14} were {22,30} true {36,39,905} or {46,901} if {48,901} I {3,906} was {22,30,33} forcing {27,907} myself {3,906} into {69} that {7a,906} situation {9,10,14} because {49,111,901} I {3,906} was {22,30} actually {42,76} afraid {36,39,905} of {69} being {22,112} alone {36,39,905}.

Sentence 36. After {69} that {7b,906}, the {1} only {35,39,905} people {9,11} I {3,906} had {23,30} were {22,30} my {3,906} old {35,38,905} friends {9,11}, but {47,901} since {49,111,901} I {3,906} live {24,109,907} in {69} a {2} different {35,40,905} city {9,15,18} now {42,43,110}, we {3,906} rarely {42,43} talk {25,109,907}.

Sentence 37. I {3,906} am {22,33,105,109,902} still {42,43} connected {24,907} to {69} many {8,906} of {69} them {5,906}, but {47,901} I {3,906} do {83,109} not {42} have {23} any in-person {35,41,905} friends {9,11} that {66,101,904} I {3,906} meet {24,109,907} regularly {42,43}.

Sentence 38. Sure {42,44,73,915} I {3,906} know {26,80,95,109,907,912,914} where {68,903} to {69} find {26,80,108,114,907} those {7b,906} who {102,904} Connect {24,109,907} like {49,901} I {3,906} do {83,109} but {47,901} --- come {24,84,110,907} on... I {3,906} want {26,60,80,109,907,912,914} to {69} meet {24,108,114,907} people {9,11} who {102,904} are {22,109} their {5,906} own {35,40,905} person {9,11}, I {3,906} want {26,80,109,907} real {35,39,905} friends {9,11}; a {2} variety {9,17} of {69} people {9,11} here {42,78}.

Sentence 39. I {3,906} don't {83,107,109} have {23} friends {9,11} but {47,901} don't {83,107,109} want {26,60,80,907,912,914} to {69} make {27,108,114,907} any friends {9,11} that {66,102,904} will {20,900} have {21,23,900} to {69} meet {24,108,114,907} in {69} real {35,39,905} life {9,14} either {42}.

Sentence 40. This {7b,906} has {23,31a} opened {27,61,907,912,914} my {3,906} eyes {9,15} to {69} reflect {26,80,108,114,907} on {69} my {3,906} current {35,38,905} friendships {9,10,14} and {46,901} acquaintances {9,11}, and {46,901} hell {110}, even {42,76} just {42,76} random {35,40,905} people {9,11} I {3,906} come {24,109,907} into {69} contact {9,12,14} with {69,104}.

Sentence 41. This {7b,906} has {23,31a} been {22} a {2} consistent {35,40,905} truth {9,13,14} through {69} the {1} years {9,17} for {69} me {3,906} and {46,901} as {49,901} much {8,906} as {49,901} I {3,906} have {23,31a} tried {24,907} being {22,112} optimistic {36,39,905} I {3,906} am {22,109} not {42} in {69} the {1} space {9,14} to {69} be {22,108,114} anymore {42,43}.

Sentence 42. I {3,906} was {22,30,33} honestly {42,44,72,915} really {42,76} looking {26,88,907} forward to {69} the {1} holidays {9,17} so {45,901} I {3,906} could {19,900} go {24,84,907} back {42,78} and {46,901} stay {24,907} with {69} my {3,906} parents {9,11} for {69} two weeks {9,17}.

Sentence 43. So {45,110,901} I {3,906} spend {24,109,907} most {8,906} of {69} my {3,906} time {9,17} on {69} my {3,906} own {8,906}, I'm {3,22,107,109,906} quite {42,70} social {36,41,905} and {46,901} keep {29,109,907} busy {36,39,905} and {46,901} this {7b,906} is {22,109} something {8,906} I'm {3,22,107,109,906} comfortable {36,39,905} with {69,104}.

Sentence 44. I {3,906} feel {26,80,109,907} people {9,11} deeply {42}, but {47,901} lately {42,43} it {6,906} feels {26,80,109,907} like {49,901} there's {22,42,78,107,109} no one {8,906} around {42,78} to {69} feel {26,80,108,114,907} with {69,104}, if {48,901} that {7b,906} makes {27,109,907} sense {9,13}.

Sentence 45. This {7b,906} is {22,109} where {68,903} my {3,906} inner {35,40,905} conflict {9,14} arises {79,109,907}: I {3,906} am {22,109} very {42,70} afraid {36,39,905} of {69} loneliness {9,10,14} because {49,111,901} many social {35,41,905} relationships {9,10,14} are {22,34,105,109,902} strongly {42,70} defined {28,907} by {69} romance {9,14} or {46,901} sexuality {9,10,14}.

Sentence 46. I {3,906} researched {26,30,95,907,912,914} online {42,78} on {69} how {68,903} to {69} have {23,108,114} fun {9,14} and {46,901} study {24,108,114,907} well {42} but {47,901} many articles {9,15,16} and {46,901} discussions {9,10,12} online {42,78} said {25,30,81,91,94,907,908,911} that {49,901} studying {24,112,907} in {69} groups {9,18} can {19,900} make {27,907} it {6,906} more {42,70} "fun" {36,39,905} and {46,901} "effective" {36,39,905} but {47,901} I {3,906} doubt {26,80,109,907} it {6,906} since {49,111,901} I {3,906} am {22,109} an {2} introvert {9,11} and {46,901} a {2} loner {9,11}.

Sentence 47. Sometimes {42,43} I {3,906} feel {26,80,109,907} this {7a,906} weird {35,39,905} mix {9,14} of {69} anxiety {9,14} and {46,901} sadness {9,10,14} like {49,901} I {3,906} should {21,900} be {22,33} doing {83} something {8,906} with {69} my {3,906} life {9,14}, but {47,901} I {3,906} just {42,76} don't {83,107,109} know {26,80,907} what {68,903}.

Sentence 48. I'm {3,22,107,109,906} curious {36,39,905} whether {49,68,901,903} others {8,906} feel {26,50,80,93,94,106,109,907,908,911} it {6,906} helps {27,109,907} them {5,906} get {24,85,907} through {69} those {7a,906} moments {9,17}, or {46,901} if {48,901} it {6,906} highlights {25,27,109,907} what's {22,68,107,109,903} missing {36,40,905} once {49,901} the {1} conversation {9,10,12} ends {29,79,109,907}.

Sentence 49. I {3,906} mean {26,50,80,91,94,106,109,110,907,908,911}, I {3,906} am {22,109} the {1} one {8,906} mostly {42,43} initiating {25,112,907} and {46,901} texting {25,112,907} first {42,43}, will {20,900} he {5,906} text {25,907} me {3,906} if {48,901} I {3,906} just {42,76} stopped {29,30,907} doing {83,112} that {7b,906}?

Sentence 50. I {3,906} don't {83,107,109} want {26,60,80,907,912,914} to {69} put {24,85,108,114,907} in the {1} effort {9,12,14,64} to {69} build {24,108,114,907} friendships {9,10,14} from {69} scratch {9,14} (especially {42,44} since {49,111,901} meeting {24,112,907} new {35,38,905} people {9,11} is {22,109} uncomfortable {36,39,905}); I {3,906} just {42,76} wish {26,50,80,93,94,106,109,907,908,911} reality {9,14} were {22,30} different {36,40,905}.

Apêndice C - Prompt e mensagens de aplicação

C.1 Instrução inicial

You will act as an automatic English language-feature tagger.

I will send you:

1. the official English tagset;
2. a numbered test file containing exactly 50 sentences.

Do not tag, classify, or analyze anything until I write: START TAGGING.

When tagging begins, follow these formatting rules exactly:

1. Preserve the original sentence numbering, wording, spelling, capitalization, and punctuation.
2. Place every applicable tag immediately after the individual word or item to which it applies.
3. Enter each set of tags between braces, following this format:

this {7b,906}

4. Do not collect the tags for the whole sentence in a single set of braces at the end.
5. Return one fully tagged sentence for each original numbered sentence.
6. Apply the complete tagset exactly as provided.
7. Return only the 50 fully tagged sentences. Do not explain the tags, correct the sentences, summarize the text, or discuss your decisions.

Correct token-level format:

I {3,906} don't {107} want {27,110,907} that {7b,906}.

Incorrect format - do not do this:

I don't want that. {3,7b,27,107,110,906,907}

Wait for the official tagset, the numbered test file, and START TAGGING.

C.2 Mensagem enviada com o tagset

This is the updated English tagset currently adopted for the test. Read and retain the complete tagset exactly as provided, including category 7b: demonstrative pronouns.

Do not tag, classify, correct, or analyze anything yet. Wait for the numbered test file and START TAGGING.

C.3 Mensagem enviada com o arquivo de teste

This is the numbered test file for category 7b: demonstrative pronouns.

Read and retain all 50 sentences exactly as provided, but do not tag, classify, or analyze them yet.

Confirm that you received exactly 50 numbered sentences and wait for START TAGGING.
