Resumo executivo

O teste avaliou exclusivamente a capacidade do GPT-5.6 Thinking de detectar, em nível de sentença, a categoria 34 - by-phrase passive voice. A categoria abrange construções passivas em que o agente ou causador é expresso por uma expressão introduzida por by, como em *this was done by Mary yesterday*.

O conjunto foi construído, auditado duas vezes e congelado antes da execução. Ele contém 50 sentenças autênticas do corpus humano: 25 positivas e 25 negativas, todas com pelo menos 20 palavras. As negativas foram deliberadamente divididas entre 15 agentless passives, pertencentes à categoria 33, e 10 usos não agentivos de by, planejados para produzir confusão superficial sem satisfazer a definição da categoria 34.

A primeira resposta completa do modelo foi preservada sem correção ou regeneração. A avaliação considerou YES somente quando a etiqueta {34} apareceu no particípio passivo correto. O modelo identificou todas as 25 positivas e rejeitou todas as 25 negativas.

Resultado oficial: TP = 25; TN = 25; FP = 0; FN = 0; precision = 100%; recall = 100%; accuracy = 100%; specificity = 100%; F1 = 100%.

Escopo: o resultado perfeito vale somente para a categoria 34 neste conjunto congelado, com o prompt, o tagset e a primeira execução aqui documentados. Ele não certifica automaticamente a correção de todas as demais etiquetas produzidas pelo modelo.

1. Objetivo e pergunta de avaliação

O objetivo foi avaliar se o GPT-5.6 Thinking identifica corretamente a categoria 34 do tagset de inglês em sentenças autênticas. A unidade de decisão foi a sentença: cada item deveria ser classificado como contendo ou não contendo pelo menos uma ocorrência correta de by-phrase passive voice.

Pergunta de avaliação: em um teste balanceado de 50 sentenças, qual é o desempenho do modelo na detecção da categoria 34, medido por true positives, true negatives, false positives, false negatives, precision, recall, accuracy, specificity e F1?

2. Definição operacional da categoria 34

Definição do tagset: 34. by-phrase passive voice: passive constructions with agent in by-phrase; e.g., this was done by Mary yesterday.

Foi considerado positivo o emprego de uma construção passiva em que o participante responsável pela ação, efeito ou causação é expresso em uma expressão introduzida por by. Esse participante pode ser humano, coletivo, institucional, não humano, abstrato, metafórico ou metonímico, desde que a relação estrutural entre a passiva e a expressão em by seja preservada.

Foi considerado negativo todo item em que não houvesse essa relação. Isso inclui passivas verdadeiras sem agente expresso, usos temporais de by, expressões reflexivas como by myself, usos de método como by posting e by calling, expressões idiomáticas e construções ativas que apenas contêm a sequência by.

Exemplo	Estrutura	Decisão 34	Razão
I was ghosted by my boyfriend.	be + participle + by-agent	YES	agente humano expresso
My view was shaped by experiences.	be + participle + by-causer	YES	causador não humano expresso
I was ghosted.	agentless passive	NO	categoria 33; sem by-agent
I would be married by 25.	passive-looking + temporal by	NO	by marca prazo, não agente
I developed it by myself.	active perfect + reflexive adjunct	NO	by myself significa sem ajuda

3. Materiais, construção e auditoria do conjunto

Corpus-fonte: pasta 05_human, com 2.855 textos humanos do corpus de autoexposição sobre solidão.

Composição: 50 sentenças completas, sendo 25 positivas e 25 negativas para a categoria 34.

Extensão mínima: todas as sentenças possuem pelo menos 20 palavras; a faixa observada foi de 20 a 74 palavras.

Autenticidade: a grafia, a capitalização, a pontuação, os emojis e a gramática originais foram preservados no arquivo de teste.

Rastreabilidade: o arquivo de origem de cada sentença, o alvo ou tipo negativo e a contagem de palavras foram registrados.

Ordem: as 50 sentenças foram embaralhadas de modo reproduzível antes da aplicação.

Gabarito: a decisão YES/NO foi preparada e congelada antes da execução e não foi enviada ao modelo.

Auditoria: cada item passou por auditoria inicial e por uma segunda auditoria independente antes do congelamento.

3.1 Critérios conservadores adotados

- Não foram usadas get-passives como alvos positivos.
- Nenhum item positivo contém duas sentenças independentes coladas artificialmente.
- A expressão em by precisa estar estruturalmente ligada ao particípio passivo.
- Usos de by para tempo, prazo, método, meio, modo, independência ou expressão idiomática foram classificados como NO.
- A presença de um particípio ou de uma forma de be, isoladamente, não foi aceita como evidência suficiente.
- As negativas foram projetadas para incluir padrões de superfície semelhantes aos positivos.

3.2 Resultado da segunda auditoria

A segunda auditoria aprovou as 50 sentenças. Não foi encontrada nenhuma sentença com gabarito invertido, nenhuma ocorrência escondida da categoria 34 entre as negativas e nenhum uso não agentivo de by entre as positivas. Todas as frases foram localizadas literalmente nos arquivos-fonte.

Composição final congelada: 25 YES + 15 NO de agentless passive + 10 NO com by não agentivo.

4. Arquitetura completa dos casos negativos

Os 25 casos NO não formam um grupo homogêneo. Eles foram planejados para testar diferentes caminhos de erro. Essa diversidade é central: um modelo que apenas procura be + particípio ou simplesmente a palavra by poderia produzir falsos positivos.

4.1 Grupo A - Agentless passives: 15 casos

Esses itens contêm passivas genuínas, mas nenhum agente ou causador expresso em uma by-phrase. Eles são positivos para a categoria 33 e negativos para a categoria 34.

Itens: 1: dumped; 2: chosen; 7: accepted; 10: appreciated; 18: approached; 20: allowed; 29: diagnosed; 32: considered; 33: respected; 36: bullied; 40: thrown; 43: offered; 45: treated; 48: asked; 50: made.

Esse grupo verifica se o modelo distingue duas categorias vizinhas do mesmo fenômeno passivo. A mera identificação de uma passiva não basta: é necessário observar se o agente foi ou não expresso.

4.2 Grupo B - Usos de by sem agente passivo: 10 casos

Item	Subtipo	Forma crítica	Possível confusão	Razão do NO
9	deadline by-phrase: by 25	by 25	be married é formalmente participial	by marca prazo/idade-limite
11	by + -ing method: by posting	by posting	by + -ing pode parecer complemento de uma passiva	expressa método da ação ativa vent

Item	Subtipo	Forma crítica	Possível confusão	Razão do NO
12	idiomatic adjunct: by some miracle	by some miracle	a expressão começa com by + sintagma nominal	expressão idiomática/circunstancial
16	active perfect + reflexive adjunct: developed by myself	developed by myself	particípio lexical próximo de by myself	have developed é voz ativa; by myself = sem ajuda
19	reflexive adjunct: by myself	all by myself / by myself	by + pronome reflexivo	significa sozinho, não agente passivo
27	reflexive adjunct: by myself	adjust by myself	verbo seguido de by + reflexivo	adjust é ativo; by myself = sem ajuda
28	reflexive adjunct: by yourself	content by yourself	be + forma que pode parecer particípio	content é adjetivo predicativo; by yourself = sozinho
38	by + -ing method: by calling	by calling	by + -ing aparece perto de um verbo em -ing	expressa método de mocking; não há passiva
39	by + -ing circumstance: by not acting	by not acting	preposição by introduz uma oração não finita	expressa circunstância/meio; não agente
49	temporal by-phrase: by now	by now	be married aparece imediatamente antes de by	by now é expressão temporal

4.3 Distinções cruciais para evitar falsos positivos

- By-phrase agentiva: responde, em termos estruturais, à pergunta quem ou o que realizou/causou a ação expressa pela passiva.
- By temporal: indica prazo ou ponto no tempo, como by 25 e by now.
- By reflexivo: indica independência, ausência de companhia ou ausência de ajuda, como by myself e by yourself.
- By de método/meio: indica como uma ação foi realizada, como by posting, by calling e by not acting.
- By idiomático/circunstancial: integra expressão fixa ou circunstancial, como by some miracle.
- Agentless passive: é passiva, mas não contém agente em by-phrase; portanto recebe {33}, não {34}.

5. Tipologia dos casos positivos e pontos de possível confusão

Os 25 positivos não se limitam ao padrão mais simples was + participle + by + person. A seleção inclui tempos, aspectos, estruturas não finitas, complementos intervenientes e agentes ou causadores de diferentes tipos.

5.1 Tipo semântico do agente ou causador

Dezesseis positivos contêm agente humano, coletivo ou institucional prototípico. Nove contêm causador, estímulo, força, instrumento metonímico ou agente metafórico não humano. Esses nove casos continuam sendo passivas com by-phrase estruturalmente válidas.

- shaped by painful past experiences: experiences causam a configuração da visão.

- led by something far greater than myself: força abstrata atua como condutor.
- reinforced by situations: situações causam o reforço.
- interpreted by my brain: brain funciona metonimicamente como interpretador.
- consumed by taxes and bs insurances: tributos/seguros funcionam como causadores do consumo.
- reminded by the deafening silence and chirping crickets: estímulos desencadeiam a lembrança.
- brought to tears by each post: cada post atua como estímulo causador.
- swamped by social obligations: obrigações funcionam como força causadora.
- shown love by this world: world funciona como agente metafórico.

5.2 Variação estrutural dos positivos

- Passiva finita no presente: is shaped by, are valued by, is reinforced by, am reminded by.
- Passiva finita no passado: was surrounded by, was diagnosed by, was ghosted by.
- Passiva perfeita: have been told by, have been created by, have been rejected by, have been bullied by, have been shown by.
- Passiva progressiva: am being led by, am being swamped by.
- Passiva infinitiva: to be heard by, to be interpreted by.
- Passiva não finita em -ing: after being dumped by, years being treated by.
- Passiva preposicional: bills are paid for by my parents; o for pertence ao verbo paid for, e by introduz o agente.

5.3 Casos de ligação não imediata entre particípio e by-phrase

- diagnosed with depression by a psychiatrist: o complemento with depression aparece entre o particípio e o agente.
- dumped in Ireland by an absolute disgrace: o adjunto locativo aparece antes da by-phrase.
- treated poorly by his friends and family: o advérbio poorly intervém entre o particípio e o agente.
- brought to tears by each post: o complemento resultativo to tears aparece antes da by-phrase.
- paid for by my parents: a preposição for pertence à unidade verbal paid for.
- ignored by everyone but my bf: but funciona com sentido de except, delimitando o conjunto de agentes.

6. Procedimento de aplicação e preservação da primeira saída

1. Foi aberta uma conversa nova com o GPT-5.6 Thinking, separada da conversa de preparação e auditoria.
2. Foi enviada uma instrução que proibia etiquetagem antes de START TAGGING e exigia etiquetas imediatamente após cada palavra ou item.
3. Foi anexado o arquivo tagset_en_2026-08-04_clean_for_test_34(2).txt.
4. O modelo recebeu o arquivo en_34_test_file.txt e confirmou o recebimento de exatamente 50 sentenças.
5. A execução foi iniciada somente com a mensagem START TAGGING.
6. O gabarito, a procedência, as auditorias e o manifesto não foram enviados ao modelo.
7. A primeira resposta completa foi preservada sem pedido de correção, regeneração ou segunda tentativa.

6.1 Nome e integridade do tagset

O nome do arquivo efetivamente enviado continha o sufixo automático (2): tagset_en_2026-08-04_clean_for_test_34(2).txt. A cópia canônica arquivada sem o sufixo possui conteúdo idêntico byte por byte.

SHA-256 das duas cópias: 68281aa166c71e425e4dd80e903c6b3020deb0e1d8f31a6695f87be4824d0fc9.

Assim, o ajuste de nome no arquivo arquivado não corresponde a alteração de conteúdo.

O tagset efetivamente usado contém uma anomalia de formatação na linha da categoria 32, em que `present continuous` e `progressive aspect` aparecem colados. As definições das categorias 33 e 34 aparecem em linhas separadas logo abaixo e estão legíveis. O relatório preserva o arquivo exato no Apêndice D.

6.2 Preservação do texto e normalizações visuais

Após a remoção automática das etiquetas para comparação com o arquivo de teste, foram observadas apenas duas diferenças visuais: espaços inseparáveis ao redor de `*never*` foram convertidos em espaços comuns na sentença 2, e a barra de escape de `r\*pe` não apareceu na sentença 22. Essas diferenças são compatíveis com normalização de Markdown e não afetam a categoria 34.

7. Conversão da saída para YES/NO

- YES: presença de {34} no particípio passivo correto em qualquer ponto da sentença.
- NO: ausência de {34} em toda a sentença.
- A presença de {33} não conta como {34}; ela registra uma `agentless passive`.
- A simples presença de `by` não conta como {34}.
- A simples presença de `be` + particípio não conta como {34} quando `by` é temporal, reflexivo, metodológico ou circunstancial.
- As demais etiquetas do tagset foram preservadas no registro bruto, mas não entraram na pontuação.

8. Resultados quantitativos

Métrica	Valor	Interpretação
True positives (TP)	25	positivos corretamente identificados
True negatives (TN)	25	negativos corretamente rejeitados
False positives (FP)	0	nenhum NO recebeu {34}
False negatives (FN)	0	nenhum YES perdeu {34}
Precision	100.0%	$TP / (TP + FP)$
Recall	100.0%	$TP / (TP + FN)$
Accuracy	100.0%	$(TP + TN) / 50$
Specificity	100.0%	$TN / (TN + FP)$
F1	100.0%	média harmônica de precision e recall

8.1 Cálculos

$Precision = TP / (TP + FP) = 25 / (25 + 0) = 1.00 = 100.0\%$

$Recall = TP / (TP + FN) = 25 / (25 + 0) = 1.00 = 100.0\%$

$Accuracy = (TP + TN) / 50 = (25 + 25) / 50 = 1.00 = 100.0\%$

Specificity = $TN / (TN + FP) = 25 / (25 + 0) = 1.00 = 100.0\%$

F1 = $2 \times (Precision \times Recall) / (Precision + Recall) = 1.00 = 100.0\%$

8.2 Matriz de confusão

	GPT YES	GPT NO
Gabarito YES	25 (TP)	0 (FN)
Gabarito NO	0 (FP)	25 (TN)

8.3 Resultado em linguagem direta

O GPT-5.6 Thinking encontrou todas as 25 ocorrências reais de by-phrase passive voice. Não marcou nenhuma das 15 agentless passives como categoria 34 e não se deixou enganar pelos 10 usos não agentivos de by. O resultado demonstra, neste conjunto, controle simultâneo da estrutura passiva, da ligação sintática da by-phrase e da distinção semântica entre agente/causador e outros valores de by.

9. Auditoria sentença por sentença

A tabela registra o gabarito preparado antes da execução, a decisão derivada da primeira saída, a classificação, o tipo linguístico, a evidência específica e a sentença original.

10. Interpretação, limitações e reprodutibilidade

10.1 Interpretação

No conjunto avaliado, o modelo distinguiu sem erro a by-phrase passive de três fontes principais de confusão: passivas sem agente, usos de by sem função agentiva e construções ativas ou adjetivais que compartilham parte do padrão superficial.

O acerto nos casos com causadores não humanos é especialmente informativo. Ele indica que a decisão não foi reduzida à procura de by + pessoa. Da mesma forma, o acerto em by 25, by now e by myself mostra que a mera presença de by não foi suficiente para produzir {34}.

10.2 Limitações

- O conjunto contém 50 sentenças e não representa todas as construções passivas possíveis do inglês.
- As sentenças provêm de um corpus temático e de um registro específico de autoexposição digital.
- O resultado se refere a uma execução específica do GPT-5.6 Thinking em 06/08/2026; novas execuções podem variar.
- A avaliação foi binária em nível de sentença e específica para {34}. As demais etiquetas não foram auditadas integralmente.
- Get-passives foram excluídas dos positivos; o teste não permite concluir sobre seu tratamento pelo modelo.
- A distinção entre agent, causer, stimulus, force e instrumento metonímico foi reunida sob a definição operacional ampla de by-phrase passive.
- A saída em Markdown produziu duas pequenas normalizações visuais que não alteraram a decisão da categoria-alvo.
- O tagset usado contém uma anomalia de formatação na linha da categoria 32, preservada e documentada.

10.3 Condições de reprodutibilidade

1. Usar o arquivo exato tagset_en_2026-08-04_clean_for_test_34(2).txt ou a cópia canônica byte-idêntica.
2. Usar exatamente en_34_test_file.txt, mantendo texto, numeração e ordem.
3. Aplicar o mesmo prompt em uma conversa nova com GPT-5.6 Thinking.
4. Não fornecer gabarito, procedência, auditorias ou manifesto antes da execução.
5. Iniciar somente após confirmação de exatamente 50 sentenças, com START TAGGING.
6. Preservar a primeira resposta completa, sem pedir correção ou regeneração.
7. Converter YES somente quando {34} estiver no particípio passivo correto.

11. Conclusão

No conjunto avaliado, o GPT-5.6 Thinking apresentou desempenho perfeito na detecção da categoria 34 - by-phrase passive voice. Todos os 25 casos positivos foram identificados e todos os 25 negativos foram corretamente rejeitados. O teste resultou em TP = 25, TN = 25, FP = 0 e FN = 0, com precision, recall, accuracy, specificity e F1 iguais a 100%.

A arquitetura dos negativos torna o resultado mais informativo do que uma simples oposição entre passiva e voz ativa. O modelo distinguiu passivas agentless, usos temporais, reflexivos, metodológicos, circunstanciais e idiomáticos de *by*, além de reconhecer passivas com agentes humanos e causadores não humanos.

A conclusão deve permanecer limitada ao conjunto, ao prompt, ao tagset e à primeira execução aqui documentados. Ela não implica desempenho perfeito em outros conjuntos nem valida automaticamente as demais etiquetas presentes na saída integral.

11.1 Formulação breve em inglês

On this frozen 50-sentence test set, GPT-5.6 Thinking achieved perfect sentence-level detection of category 34, by-phrase passive voice: TP = 25, TN = 25, FP = 0, FN = 0, precision = 100%, recall = 100%, accuracy = 100%, specificity = 100%, and F1 = 100%.

3. A {2} big {35,37,905} part {9,17} of {69} the {1} problem {9,14} is {22,109} that {92,910,911} my {3,906} current {35,38,905} view {9,13,14} of {69} people {9,11,18} is {22,109} still {42,43,105} shaped {27,34,902,907} by {69} painful {35,39,905} past {35,38,905} experiences {9,10,12,14} - they {5,906} left {27,30,907} me {3,906} deeply {42,70,915} afraid {36,39,905} of {69} others {8,906}.

5. I {3,906} was {22,30} surrounded {24,34,902,907} by {69} people {9,11,18} who {102,904} talked {25,30,907} to {69} each {8,906} other {8,906}, laughed {24,30,907}, and {46,901} had {23,30} their {5,906} own {35,40,905} groups {9,18}, while {49,901} I {3,906} stayed {24,30,907} alone {42,78}.

8. I {3,906} have {23,109} trouble {9,14} making {24,112,907} friends {9,11}, and {46,901} I {3,906} used {29,30,907} to {69} go {24,108,907} to {69} my {3,906} bf's {9,11} friends' {9,11} parties {9,18} but {47,901} decided {26,30,60,907,912,914} that {49,901} it {6,906} is {22,109} better {36,39,905} for {69} my {3,906} mental {35,41,905} health {9,14} to {69} stay {24,108,907} home {42,78} while {49,901} he {5,906} goes {24,109,907}, bc {49,111,901} I'm {3,22,107,109,906} ignored {26,34,902,907} by {69} everyone {8,906} but {69} my {3,906} bf {9,11}.
9. I {3,906} think {26,50,80,106,109,907} the {1} reason {9,13,14} why {904} I {3,906} have {23,109} so {42,70,915} much {42,70,915} pressure {9,14} on {69} myself {3,906} is {22,109} because {111,901} I {3,906} feel {26,80,109,907} like {49,901} I {3,906} want {26,80,109,907} to have {23,60,108,912,914} kids {9,11} and {46,901} be {22,60,108,912,914} married {24,33,902,907} by {69} 25 or {46,901} at {69} most {42,71,915} 26.

I {3,906} think {26,50,80,106,109,907} I {3,906} may {19,900} be {22} depressed {36,39,905} because {111,901} I {3,906} don't {42,83,107,109} really {42,76,105} enjoy {26,80,907} anything {8,906} anymore {42,43} I'm {3,22,107,109,906} realizing {26,32,50,80,106,907} life {9,14} sucks {24,109,907} I {3,906} mean {25,26,80,109,907} nothing {8,906} really {42,76} adorable {36,39,905} anymore {42,43} so {45,901} I {3,906} can't {19,42,107,900} really {42,76,105} enjoy {26,80,907} myself {3,906} and {46,901} I {3,906} can't {19,42,107,900} even {42,76,105} buy {24,907} a {2} lot {9,17} since {111,901} most {8,906} is {22,109} consumed {24,34,902,907} by {69} taxes {9,14,18} and {46,901} bs {35,39,905} insurances {9,10,12,14}.
36. Furthermore {45,901}, I {3,906} was {22,30} the {1} butt {9,15} of {69} their {5,906} jokes {9,14}, I {3,906} was {22,30} being {22,32} bullied {24,33,902,907} my {3,906} entire {35,40,905} life {9,14} and {46,901} just {42,76} living {24,112,907} in {69} denial {9,10,14}, because {49,111,901} the {1} idea {9,13} of {69} having {23,112} friends {9,11} was {22,30} the {1} only {35,40,905} thing {9,15} that {66,102,904} distracted {27,30,907} me {3,906} from {69} my {3,906} loneliness {9,10,14} and {46,901} depression {9,10,14}.
37. I {3,906} want {26,60,80,109,907,912,914} to feel {26,80,108,907} happy {36,39,905} for {69} myself {3,906}, but {47,901} I {3,906} am {22,109} reminded {26,34,80,902,907} by {69} the {1} deafening {35,39,905} silence {9,14} and {46,901} chirping {35,112,905} crickets {9,11} that {51,94,908,911} my {3,906} accomplishment {9,10,12,14} means {25,26,80,109,907} nothing {8,906} because {111,901} it {6,906} doesn't {42,83,107,109} change {27,907} anyone's {8,906} life {9,14} but {69} my {3,906} own {8,906}.
38. My {3,906} classmates {9,11,18} — and {46,901} even {42,76} a {2} few {35,17,905} people {9,11,18} I {3,906} thought {26,30,50,80,102,106,904,907} were {22,30} my {3,906} friends {9,11} — started {29,30,907} mocking {24,112,907} me {3,906} by {69} calling {25,112,907} my {3,906} father's {9,11} name {9,14} in {69} a {2} wrong {35,39,905} and {46,901} insulting {35,39,905} way {9,14}.
39. I {3,906} respected {24,26,30,907} her {5,906} space {9,14} and {46,901} her {5,906} choices {9,10,12,13}, but {47,901} recently {42,43} I've {3,23,107,109,906} been {22} thinking {26,80,907} about {69} whether {68,903} I {3,906} missed {24,26,30,907} an {2} opportunity {9,14} by {69} not {42} acting {24,112,907} when {49,901} I {3,906} had {23,30} the {1} chance {9,13,14}.
40. I {3,906} grew {29,30,907} up {42,78} with {69} the {1} sole {35,40,905} mindset {9,13} that {49,901} I {3,906} am {22,109} the {1} burden {9,14}, I {3,906} am {22,109} the {1} discrepancy {9,10,14}, I {3,906} am {22,109} trash {9,15} that {66,102,904} needs {27,109,907} to {69} be {22,108} thrown {24,33,902,907} away {42,78}.
41. For {69} someone {8,906} who {102,904} has {23,109} been {22,31a} alone {36,39,905} since {69} COVID {9,16}, and {46,901} never {42,43} recovered {24,31a,907} from {69} chronic {35,40,41,905} loneliness {9,10,14}, I {3,906} can't {19,42,107,900} help {27,109,907} but {49,901} admit {25,26,50,51,80,94,106,109,907,908,911} I {3,906} am {22,109} brought {24,34,902,907} to {69} tears {9,14} by {69} each {8,906} post {9,10,16}.
42. Last {35,38,905} November {9,17} I {3,906} was {22,30} completely {42,70,105,915} ghosted {25,34,902,907} by {69} my {3,906} boyfriend {9,11} of {69} 5 years {9,17} when {49,901} I {3,906} was {22,30} going {24,85,907} through a {2} very {42,70,915} hard {35,39,905} phase {9,12,14} in {69} life {9,14}.
43. I {3,906} created {24,30,907} this {7b,906} one {8,906}, but {47,901} quickly {42} left {24,30,907} when {49,901} I {3,906} was {22,30} offered {25,33,82,902,907} a {2} position {9,10,14} as {49,69,901} a {2} mod {9,11} in {69} the {1} other {35,40,905} one {8,906}, which {102,904} now {42,43} leaves {27,109,907} this {7b,906} one {8,906} without {69} any {8,906} mods {9,11}.
44. I {3,906} feel {26,80,109,907} like {49,901} I'm {3,22,107,109,906} being {22,32} swamped {24,34,902,907} by {69} social {35,41,905} obligations {9,10,14} I {3,906} never {42,43} asked {25,30,82,101,904,907} for {69,104}, so long as {48,901} I {3,906} be {22,109} a {2} loner {9,11}; I {3,906} push {24,109,907} the {1} boulder {9,15}, I'd {3,20,107,900,906} Sisyphus {24,907} myself {3,906} towards {69} the {1} absurdity {9,10,14}.
45. Loneliness {9,10,14} is {22,109} usually {42,43,105} treated {24,33,902,907} as {69} an {2} accident {9,12,14}, something {8,906} that {66,102,904} happens {79,109,907} later {42,43} in {69} life {9,14} after {69} a {2} loss {9,10,12,14} or {46,901} a {2} breakup {9,10,12,14} or {46,901} a {2} change {9,10,12,14} of {69} city {9,15}.
46. I've {3,23,107,109,906} been {22} bullied {24,31a,34,902,907} by {69} people {9,11,18} in {69} the {1} past {9,14} and {46,901} it {6,906} still {42,43} affects {27,109,907} me {3,906} today {42,43} and {46,901} it's {6,22,107,109,906} like {49,901} where {67,903} are {22,109} the {1} nice {35,39,905} people {9,11,18} who {102,904} actually {42,76} have {23,109} feelings {9,10,13,14}, integrity {9,14}, and {46,901} want {26,80,109,907} to do {60,83,108,912,914} good {9,14} in {69} the {1} world {9,15}? 😊
47. I {3,906} am {22,109} sorry {36,39,905} mother {9,11}, I {3,906} am {22,109} sorry {36,39,905} 13-year {35,38,905} old {35,38,905} me {3,906}, I {3,906} wish {26,80,50,106,109,907} you {4,906} could {19,900} have {23,31a} been {22} shown {25,34,902,907} love {9,14} by {69} this {7a,906} world {9,15}.
48. I {3,906} also {42} think {26,80,94,109,907,908,911} that {49,901} I've {3,23,31a,107,906} isolated {24,907} myself {3,906} from {69} people {9,11} because {49,111,901} I {3,906} have {23,109} low {35,39,905} self {35,14,905} esteem {9,14} and {46,901} don't {83,107,109} want {26,60,80,109,907,912,914} to {69} be {22,108} asked {25,33,82,902,907} about {69} my {3,906} life {9,14}, or {46,901} giving {25,112,907} updates {9,16} about {69} my {3,906} life {9,14} 24/7, I {3,906} am {22,109} 21 years {9,17} old {36,38,905} and {46,901} haven't {23,31a,107} really {42,76} accomplished {24,907} anything {8,906}, it's {6,22,107,109,906} embarrassing {36,39,905} and {46,901} makes {27,109,907} me {3,906} feel {26,80,108,907} like {49,901} a {2} failure {9,12,14}.
49. When {49,901} he {5,906} left {24,30,907} me {3,906}, for {69} another {35,40,905} woman {9,11}, I {3,906} really {42,76} thought {26,30,50,80,106,907} I {3,906} would {20,900} find {26,907} someone {8,906} else {42} and {46,901} that {91,94,908,911} I {3,906} would {20,900} be {22} married {24,33,902,907} by {69} now {42,43,110}.
50. So {45,901} as {69} a {2} kid {9,11} I {3,906} used {29,30,907} to keenly {42} observe {26,108,907} and {46,901} was {22,30} made {27,33,902,907} to feel {26,61,80,108,907,912,914} so {42,70,915} cautious {36,39,905} of {69} everything {8,906} i {3,906} do {83,109}.

DECISÃO

As 50 sentenças foram aprovadas para a categoria 34.

Não foi encontrada nenhuma sentença com gabarito invertido, nenhuma ocorrência escondida de {34} entre as negativas e nenhum falso uso de by entre as positivas.

NOTA SOBRE AGENTE E CAUSADOR

Dezesseis positivas apresentam agente humano, coletivo ou institucional prototípico.

Nove apresentam causador, estímulo, força ou agente metafórico não humano.

Esses nove casos continuam sendo by-phrase passives estruturalmente válidas, pois o sujeito funciona como paciente/afetado, o verbo está em construção passiva e a expressão em by corresponde ao participante que produziria a ação ou o efeito na paráfrase ativa.

Eles foram mantidos para evitar restringir artificialmente a categoria apenas a agentes humanos.
